EDUCATION

September 2020-May 2024 **Bachelor**, Solent University, Software engineering

- Developed strong problem-solving and critical thinking skills through collaborative team projects.
- Gained proficiency in JavaScript, HTML, CSS, Java, Object-Oriented Programming, full-stack development, and Python.
- Hands-on experience with backend technologies such as SQLite, PostgreSQL, MongoDB, and Firebase.

Septemb er 2019 -July 2020

Foundation Year, Solent University— Computing

 Completed foundation year in computing, acquiring essential skills in computer science, including proficiency in programming languages such as C and Python.

PROFESSION March 2023
AL - March 2024
EXPERIENCE

Omidex, Finland-Remote—Full Stack Developer

 UI/UX Development: Designed and developed dynamic user interfaces using React.js, HTML, and CSS. Created engaging and user-friendly designs with Figma, ensuring a seamless user experience.

- Web Application Development: Collaborated closely with a cross-functional team to build robust web applications. Implemented best practices in full-stack development and participated in code reviews to maintain code quality.
- DevOps Integration: Gained practical experience in DevOps methodologies, contributing to CI/CD pipelines and automated deployment processes. Enhanced collaboration and teamwork skills through agile project management and continuous learning.

SKILLS & ABILITIES

- Programming Languages: Java, C, JavaScript, HTML, CSS, React.js, NextJS, TypeScript, Node.js, Python
- Technologies: Azure, Docker, SQLite, PostgreSQL, MongoDB, Firebase, GitHub, Figma
- Development Practices: Agile, Critical Thinking, Problem-Solving, DevOps, Adaptability
- Other Skills: Test-Driven Development (TDD), Behaviour-Driven Development (BDD), CI/CD

TRANING AND CERTIFICATION

Full Stack development, CodeYourFuture, London

June 2022 - September 2023

Completed a full-stack development course at Code Future, focusing on JavaScript, React.js, HTML, CSS, POSTGRESQL, Git/GitHub for source control, and team communication using slack.

Developed collaborative skills through team projects, where we built applications using modern frameworks. This experience enhanced my proficiency in both frontend and back-end development.
